FEB 22 2000

Dear Brigadier General carl strock
I Think if you breach the dams you would be throwing atleast $8,000,000 away. You could cause a flood and Knock out homes. You should make a law about catching salmon for awhile and see if their population improves. If you Knock out the dams you would be eliminating a seaport at Lewiston. You will also eliminate many jobs.
I am a fourth grader at Russell Elementary in Moscow, ID.

Sincerely
Karl
