US Corps of Engineers:

MAR 0 7 2000

Breaching the DAMS is NOT going to solve the Salmon problem. Special interest groups that want to SAVE various species are what is killing the salmon. SAVING the Sea Lions is a great Example!

Barging products and hydropower on the Snake River and Columbia River are much more important for our livelyhoods and well being than this faulty experiment to "SAVE the SALMON". Let's NOT ~~lose~~ lose more than we already have!!
