Dear Sir:

I am writing you this letter to urge you to remove all four dams on the Snake River. They are interfering with the Salmon. I am of the belief of preserving life, not taking away life. The salmon & steelhead need to have the Snake River returned to its original way by completing removing all four dams. Please restore this precious ecosystem. This will only help the surrounding areas economically. I look forward to fishing in these waters again, hopefully soon with my grand children. Mother Nature did not plan on these dams. Please remove them immediately.

Sincerely,
Terry of Lazy Dog Ranch
