Dear General Strock March 31, 2000

Enclosed you will find the balance of the SAVE OUR DAMS petitions. This will bring the total count to 86,000 that we have presented to you. 95% of the people who have signed the petition are from people who live and work in the Pacific Northwest and are residents of Washington, Oregon, Idaho or Wyoming. This is unlike those that want to remove dams, who have gotten the majority of their support from non residents

of the Pacific Northwest.

As executive director of SAVE OUR DAMS. I submit the 86.000 petitions and signatures in support of option 1 & 2.

We believe we can have Dams and Salmon through the use of Fish Friendly technology and common sense.

Sincerely
Tom Flint
