

U.S. Army Corps of Engineers
BUILDING STRONG®

Exciting Careers *in...* *Contracting*

The U.S. Army Corps of Engineers (USACE) is one of the world's premier public engineering, design and construction management agencies. USACE includes more than 37,000 dedicated civilians and over 550 soldiers who deliver timely and quality engineering, technical and management services to customers in more than 90 countries. We have a broad range of missions in support of the Department of Defense and the nation to include design and construction of military facilities, engineering research and development, water and natural resource management, and support to other government agencies. We provide the opportunity to work in major cities, small communities and at offices throughout the world.

Contract Specialist

Contract Specialists with USACE will be involved in awarding contracts and serving as decision-makers and key critical players in the planning and execution of Corps projects. The National Contracting Organization represents the Corps in all contractual matters, and provides world class contracting support to ensure successful execution of USACE mission requirements.

Qualifications

Qualifications vary according to the job description. Qualified candidates must possess a 4-year course of study leading to a bachelor's degree that included or was supplemented by at least 24 semester hours in any combination of the following fields: accounting, business, finance, law, contracts, purchasing, economics, industrial management, marketing, quantitative methods, or organization and management.

In addition to offering a challenging and rewarding work environment, we offer competitive salaries, training and outstanding benefits.
