

Threatened and Endangered Species and Critical Habitat Compliance and Effect Determinations

- Endangered Species Act
- 50 CFR 402
- ER 1130-2-540
- EP 1130-2-540, EP 1165-2-1

Table 1. Threatened and Endangered Species Determinations

Consultation Code: 01EIFW00-2017-SLI-1500 Stites Section 595 Wastewater System Improvement Project

Listed Species Common Name	Listed Species Scientific Name	Species Status	Species Affected? Why? (Notes)	Critical Habitat Designated?	Critical Habitat Adversely Affected? Why?(Notes)
Canada Lynx	<i>Lynx canadensis</i>	Threatened	No; Note A	Final Designated	No; Note 1
North American Wolverine	<i>Gulo gulo luscus</i>	Proposed Threatened	No; Note A	No	N/A
Bull Trout	<i>Salvelinus confluentus</i>	Threatened	No; Note A	Final Designated	No; Note 2
Spalding's Catchfly	<i>Silene spaldingii</i>	Threatened	No; Note A	No	N/A
Steelhead	<i>Oncorhynchus mykiss</i>	Threatened	No; Note A	Final Designated	No; Note 2
Chinook Salmon	<i>Oncorhynchus tshawytscha</i>	Threatened	No; Note A	Final Designated	No; Note 1
<p>A. The proposed action will not result in stressors that would be expected to act directly on listed individuals to have any direct or indirect consequences (positive or negative) on the environment, and would therefore have 'no effect' on listed species. Explain: there will be no effect to fish species as the project as the levee will isolate the project from the river. There would be no effect to Canada Lynx or Wolverine as both species occur at higher elevations. There would be no effect to Spalding's Catchfly as the work will occur in existing disturbed areas and no vegetation would be effected.</p>					
<p>CH Effect Determinations</p> <ol style="list-style-type: none"> 1. The proposed action will not occur in or near to, and thus would have no effect on, designated or proposed CH. The IPAC is attached. 2. The proposed action will occur in or near to designated or proposed CH but will not affect the habitat. There will be no in river work and the levee will isolate the project from the river. BMP will be in place in accordance with section 402 construction general permit and the stormwater pollution prevention plan. 					

Essential Fish Habitat Compliance and Effect Determination

- Magnuson–Stevens Fishery Conservation and Management Act

The proposed action would not adversely affect EFH. No EFH consultation is required.

Consultation Code: 01EIFW00-2017-SLI-1500

Event Code: 01EIFW00-2017-E-03008

Project Name: Stites Section 595 Wastewater System Improvement Project

Subject: List of threatened and endangered species that may occur in your proposed project location, and/or may be affected by your proposed project

To Whom It May Concern:

The enclosed species list identifies threatened, endangered, proposed and candidate species, as well as proposed and final designated critical habitat, that may occur within the boundary of your proposed project and/or may be affected by your proposed project. The species list fulfills the requirements of the U.S. Fish and Wildlife Service (Service) under section 7(c) of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 et seq.).

New information based on updated surveys, changes in the abundance and distribution of species, changed habitat conditions, or other factors could change this list. Please feel free to contact us if you need more current information or assistance regarding the potential impacts to federally proposed, listed, and candidate species and federally designated and proposed critical habitat. Please note that under 50 CFR 402.12(e) of the regulations implementing section 7 of the Act, the accuracy of this species list should be verified after 90 days. This verification can be completed formally or informally as desired. The Service recommends that verification be completed by visiting the ECOS-IPaC website at regular intervals during project planning and implementation for updates to species lists and information. An updated list may be requested through the ECOS-IPaC system by completing the same process used to receive the enclosed list.

The purpose of the Act is to provide a means whereby threatened and endangered species and the ecosystems upon which they depend may be conserved. Under sections 7(a)(1) and 7(a)(2) of the Act and its implementing regulations (50 CFR 402 et seq.), Federal agencies are required to utilize their authorities to carry out programs for the conservation of threatened and endangered species and to determine whether projects may affect threatened and endangered species and/or designated critical habitat.

A Biological Assessment is required for construction projects (or other undertakings having similar physical impacts) that are major Federal actions significantly affecting the quality of the

human environment as defined in the National Environmental Policy Act (42 U.S.C. 4332(2) (c)). For projects other than major construction activities, the Service suggests that a biological evaluation similar to a Biological Assessment be prepared to determine whether the project may affect listed or proposed species and/or designated or proposed critical habitat. Recommended contents of a Biological Assessment are described at 50 CFR 402.12.

If a Federal agency determines, based on the Biological Assessment or biological evaluation, that listed species and/or designated critical habitat may be affected by the proposed project, the agency is required to consult with the Service pursuant to 50 CFR 402. In addition, the Service recommends that candidate species, proposed species and proposed critical habitat be addressed within the consultation. More information on the regulations and procedures for section 7 consultation, including the role of permit or license applicants, can be found in the "Endangered Species Consultation Handbook" at:

<http://www.fws.gov/endangered/esa-library/pdf/TOC-GLOS.PDF>

Please be aware that bald and golden eagles are protected under the Bald and Golden Eagle Protection Act (16 U.S.C. 668 et seq.), and projects affecting these species may require development of an eagle conservation plan (http://www.fws.gov/windenergy/eagle_guidance.html). Additionally, wind energy projects should follow the wind energy guidelines (<http://www.fws.gov/windenergy/>) for minimizing impacts to migratory birds and bats.

Guidance for minimizing impacts to migratory birds for projects including communications towers (e.g., cellular, digital television, radio, and emergency broadcast) can be found at: <http://www.fws.gov/migratorybirds/CurrentBirdIssues/Hazards/towers/towers.htm>; <http://www.towerkill.com>; and <http://www.fws.gov/migratorybirds/CurrentBirdIssues/Hazards/towers/comtow.html>.

Please note: The IPaC module for producing a list of proposed and designated critical habitat is currently incomplete. At this time, we ask that you use the information given below to determine whether your action area falls within a county containing proposed/designated critical habitat for a specific species. If you find that your action falls within a listed county, use the associated links for that species to determine if your action area actually overlaps with the proposed or designated critical habitat.

Canada Lynx (*Lynx canadensis*) - Designated February 24, 2009.
Counties: Boundary County.

Federal Register Notice:

We appreciate your concern for threatened and endangered species. The Service encourages Federal agencies to include conservation of threatened and endangered species into their project planning to further the purposes of the Act. Please include the Consultation Tracking Number in the header of this letter with any request for consultation or correspondence about your project that you submit to our office.

Attachment(s):

- Official Species List

Official Species List

This list is provided pursuant to Section 7 of the Endangered Species Act, and fulfills the requirement for Federal agencies to "request of the Secretary of the Interior information whether any species which is listed or proposed to be listed may be present in the area of a proposed action".

This species list is provided by:

Idaho Fish And Wildlife Office

Counties: Idaho, ID

Endangered Species Act Species

There is a total of 4 threatened, endangered, or candidate species on this species list. Species on this list should be considered in an effects analysis for your project and could include species that exist in another geographic area. For example, certain fish may appear on the species list because a project could affect downstream species. See the "Critical habitats" section below for those critical habitats that lie wholly or partially within your project area under this office's jurisdiction. Please contact the designated FWS office if you have questions.

Mammals

NAME	STATUS
Canada Lynx <i>Lynx canadensis</i> Population: Contiguous U.S. DPS There is final designated critical habitat for this species. Your location is outside the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/3652	Threatened
North American Wolverine <i>Gulo gulo luscus</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/5123	Proposed Threatened

Fishes

NAME	STATUS
Bull Trout <i>Salvelinus confluentus</i> Population: U.S.A., conterminous, lower 48 states There is final designated critical habitat for this species. Your location is outside the critical habitat. Species profile: https://ecos.fws.gov/ecp/species/8212	Threatened

Flowering Plants

NAME	STATUS
Spalding's Catchfly <i>Silene spaldingii</i> No critical habitat has been designated for this species. Species profile: https://ecos.fws.gov/ecp/species/3681	Threatened

Critical habitats

There are no critical habitats within your project area under this office's jurisdiction.
