

Walla Walla District Life Jacket Loaner Board Locations

The life jackets provided at these loaner board locations are for those visitors who forgot their personal life jacket. Visitors should not rely on the life jacket loaner board program as a sole source for their life jackets. If a life jacket is borrowed from a loaner board it should be returned the same day it is borrowed. Research shows that 90 percent of drownings at Corps operating projects could have been prevented if a life jacket had been worn by the victim. It won't work if you don't wear it! Life jackets save lives!
