Lower Monumental Recreational Lock Schedule Change

Lower Monumental recreational lock schedule will change starting September 8, 2015 further notice due to operational changes for the lock. Lower Monumental is located at Snake River mile 41.6.

The following recreational lock schedule will be implemented.

Upstream Lockage	Downstream Lockage
9:00 a.m.	9:30 a.m.
6:00 p.m.	6:30 p.m.

One of two fill valves used to operate the lock is out of service. Because the second valve is displaying similar symptoms as the first valve before it failed, operations have been modified to mitigate risk of failure. The District is working aggressively to get the failed valve back in service, with contract work expected to begin no later than September 8, 2015.
