RE: Lower Snake River Juvenile Salmon Migration Feasibility
Report

Dear Army Corps of Engineers:

We own and operate a cattle ranch in Eastern Oregon. We are very unhappy with the newspaper articles, publicity and the approach in solving the salmon migration issue.

We believe the best way to aid our salmon is to adopt Alternatives 1 or 2.

We are opposed to dam breaching (Alternative 4) because of its harmful effects on the economy and future growth. This will not help recover salmon.

Thank you for the opportunity to comment.

Sincerely,

Thomas E. Currin
Marlene Currin
