Lower Snake River Juvenile Salmon Migration Draft Feasibility Report/ Environmental Impact Statement

The U.S. Army Corps of Engineers invites any person who has an interest in the Draft FR/EIS or represents a group of people that have an interest in the subject matter of this study, to make comments. The Corps will respond to the comments related to their Draft FR/EIS in their next NEPA document produced for the Lower Snake River Juvenile Salmon Migration Feasibility Report/EIS. Comments will be accepted through March 31, 2000.

Name: *Deanne Saxton*
Organization: *Paramount Pest Control*

Comments:

I believe dam breaching is a limited approach to solving the problem. Until the 10 mile nets in the oceans, the Indian Gill netting, terns taking millions of smolts are addressed with the same vigor as the dam breaching this issue will remain a limited approach to a long term problem.
