Feb. 16, 2000

Dear Brigadier General Carl Strock,  
I don't think that we should  
breach the dams on the Snake  
River. For one thing it cost millions  
of dollars to build them and  
if we breach them it will  
cost millions more. You would  
also have to shut down PFI  
and that is where we get the  
paper I am writing on right  
now. Another reason is that  
we would not have as much  
electricity.

I go to Russell Elementary  
School. I am in Mrs. John-  
son's fourth grade. We have  
talked about it quite a bit  
and I just don't think we should  
breach the dams.

Sincerely,  
Alanna Stunk
