

**Re: Lower Snake River Juvenile Salmon Migration Feasibility Study**

**Dear Army Corps of Engineers:**

I am a citizen of the Pacific Northwest and believe the best way to aid our salmon is to adopt Alternatives 1 or 2. I oppose dam breaching (Alternative 4) because it is economically harmful and will not help recover salmon.

**Thank you for the opportunity to comment.**

*I oppose breaching dams very much because of the loss of electricity which is low priced & clean.*

*I'm a retired farmer & find the economic situation is very poor - anymore problems & expense for our farmers will simply put them out of business. We need the river transportation!*
