Subject: PROTECTING AND RESTORING OUR SALMON AND STEELHEAD

JUL 11 2000

Dear Brigadier General,

I'm writing to you today to ask you to incorporate some kind of upstream flow-way so the salmon can reach their breeding grounds. I don't believe we need to tear down the dam systems that were built in the 1960 and 1970. I think we need to work together to achieve a balance that works for both. We need to restore the salmon and the Snake River ecosystem to benefit the region economically and worldwide! Please help us save the Pacific Northwest, I plan to visit that region one day soon again. A reply would really be appreciated!

Best Regards,

Nancy A. Kowalski
