Subject: Dam Breaching (Alternate 4)

Dear Corps of Engineers:

We have tried to fax to your organization, comments from several of our members on the above referenced subject. Eight of our customers wish to make public comments that we oppose dam breaching (Alternate 4) because it is economically harmful and will not help recover salmon. The region needs the dams' clean electricity. The salmon need us to look at all the factors affecting their survival, not focus on just one.

Names and addresses of those who signed a similar comment statement are available upon request.

Sincerely,

Maurice F. Cavanagh
