MEMORANDUM

FROM: Allen A. Eng, M.D.
DATE: Thursday, February 24, 2000
SUBJ: Lower Snake River Dams

Dear Sirs:

I am writing this short note in support of removing the dams on the lower Snake River. I believe that Idaho's salmon and steelhead are at great risk if these dams remain in place.

By removing these dams, there is still a chance that we could correct the mistakes of the past.

Allen A. Eng, M.D.

AAE/jc
