

FEB 14, 2000

Dear Army Corps of Engineers:

I am a citizen of the Pacific Northwest and believe the best way to aid our salmon is to adopt Alternatives 1 or 2. I oppose dam breaching because it is economically harmful and will not help recover salmon. Has any one given any thought to the amount of sediment that will be washed out of the Snake River into the Tri Cities area and what it will do to the salmon smolt. I work on tug boats on the Columbia \, Snake Rivers and wonder why we continue to gillnet sturgeon and smelt, are we trying to bring these to an end also'

Thank you for the opportunity to comment,

Capt. Dan Mullican
