Walla Walla District Corps of Engineers
Attn: Lower Snake River Study
201 N. Third Ave.
Walla Walla, WA 99362-1876

MAR 07 2000

TO Whom it may concern,

NWF is urging the Corps to choose the option that makes sense Scientifically, economically, and for our future: removing the four dams on the lower Snake River. Act now; all species of salmon and Steelhead will be extinct by 2017 if we don't make the decision to remove these dams. Include dam removal in any option chosen to recover Snake River Salmon. These dams don't make sense for our economy, for the health of our communities, or for fish and wildlife. Many scientists agree that dam removal will restore all Snake River Salmon and steelhead.

Sincerely,
