Federal Caucus Comment Record  
C/O BPA-PL  
707 W. Main St., Suite 500  
Spokane, WA 99201

The dams built on the Columbia and Snake Rivers were built for: Electrical Power, Transportation, Flood Control, Irrigation and Economics. All of which has greatly improved quality of life in the Northwest.

Dam breaching would be devastating not only to the Northwest, but also effect many other regions in the country.

There is an alternative to breaching dams. We have the Technology and Biological Science to aid the survival of fish, without removing dams.

We the undersign want to **SAVE our DAMS.**

NAME	ADDRESS
1. Alice L. Newman	503 S. Orr Rd Hermiton
