Re: Scanned Photos, Topo, and Desired Alignment
East/West Loop Road, McCall, Idaho
HDR Project No. 08096-055-103

Dear Mr. Ellsworth:

Enclosed with this letter are scanned photo files, topo files, and a desired alignment file. Cortney Gibbs was the engineer who put this information together, he may be a good resource for questions about usage and organization. All data gathered for this project at this time has been at a marketing level. We will supplement this data with project specific information upon receipt of our Notice-To-Proceed. At which time more data will be available to you. If there is any additional information that will help you define your scope for the East/West Loop Road project that I may provide, please do not hesitate to call me.

Very truly yours,

HDR ENGINEERING, INC.

Dustin Commons, P.E.
Project Manager
