Walla Walla, WA 99362-1876

Gentlemen:

As you might imagine, I am a rafting and fishing outfitter on the Middle Fork of the Salmon River and support partial dam removal for the four smolt killer dams. I am a third generation Idahoan with degrees in Recreation Management and Personnel. I have been rafting the Salmon River since there were plenty of Salmon migrating and last year saw two.

It's no wonder the American public no longer vote as people feel helpless. You all can take some responsibility for reducing the publics faith in government to do the right thing. If you go on trial for your negligence or incompetence and I am on the jury, count on going straight to jail. Think about how you want to be remembered when the sun sets in your lives!

Sincerely yours,

Dave Mills

Rocky Mountain River Tours/Middle Fork Salmon

P.S. Has anyone mentioned low head hydro?
