

MAR 03 2000

My own feelings on Breeching the dams is  
pull the gill nets out of the mouth  
of the Columbia and you will see a lot  
more of your fish returning. Without  
the dam's it will cost many more jobs  
then pulling the nets, and you can always  
put the nets back if it don't help.

Sincerely  
Boyd Hites
