

MAR 24 2000

To Whom It May Concern:
3/20/00

We are from a classroom that is in the Pomeroy Elem. School that is concerned about you taking out the 4 Dams on the Lower Snake River. If you take out the 4 Dams the farmers will have to truck there grain farther around. The people who work on the river will lose their jobs. The town of Pomeroy will most likely turn into a ghost town because everybody will probably move to a different town to work more easily than having to travel a lot of miles. Our families will lose their jobs also. The recreation you would not be able to boat, water ski, or swim because the river would be to crowded and it would cause danger for the people on the river.

Sincerely,

Tyrell Curnutt
