Re: SNAKE AND COLUMBIA RIVER SALMON

Dear General Strock:

It would be a tragedy to our United States and to all of us to lose the species of salmon and steelhead on the Snake River and the salmon on the Columbia River. Restoring the salmon and the Snake River ecosystem will also benefit the region economically.

Even though I live far from the area, losing these American creatures would be devastating to me and to many people I know especially the Indian Tribes in that area.

I have been sadly aware of this situation from friends in the Northwest like Mr. and Mrs. Peter Mennen and the Mennen Environmental Foundation. Please remove those dams.

Yours sincerely,

A handwritten signature in cursive script that reads "Phebe Cambata". The ink is dark and the signature is fluid and legible.
