

DEAR VICE PRESIDENT GORE:

MAR 30 2000

I urge you to show your leadership and commitment to protect our way of life by supporting removal of the four Lower Snake River dams as the key part of a plan to restore endangered Columbia and Snake River salmon.

We need salmon in the Northwest. They are a vital part of our economy, our legacy to our kids and our way of life, but the four Lower Snake River dams are driving them toward extinction. Those dams don't make sense—they cost more to keep than they are worth. I want to see a future that includes a healthy economy, healthy communities and healthy salmon. Only partial removal of the four Lower Snake River dams will work.

Please include this postcard in the official public comment record for the "All-H" paper and the Corps DEIS.

MAR 30 2000
M. J. CLARKE
