

# DEAR PRESIDENT CLINTON:

We need salmon in the Northwest. They are a vital part of our economy, our legacy to our kids and our way of life. The four Lower Snake River dams are driving salmon toward extinction.

As you provided leadership in the spotted owl forest issues, I urge you to show your leadership and commitment to protecting our invaluable salmon by supporting removal of the four Lower Snake River dams. We need a science-based decision now.

Those dams don't make sense—they cost more to keep than they are worth. I want to see a future that includes a healthy fishing economy, healthy communities and healthy salmon stocks. Only partial removal of the four Lower Snake River dams will work.

Please include this postcard in the official public comment record for the "All-H" paper and the Corps DEIS.
