Subject:

We Need Salmon and Those Dams Don't Make Sense!

Dear Vice President Gore and Federal Agency Salmon Managers,

We need salmon and those dams don't make sense!

I urge you to choose partial removal of the 4 Lower Snake River dams as the only way to reliably prevent more extinctions of Snake River Salmon.

Please make this message part of the official comment record for the National Marine Fisheries Service's All-H Paper and the Army Corps of Engineers' Draft Environmental Impact Statement for the Administration decision.

Sincerely,
