I oppose breaching the dams

I Oppose Dam Breaching.

Dear Army Corps of Engineers:

This e-mail is to let you know that I am against the removal, a much better word than the glossed over term, "natural river draw down", of the four Snake River dams.

- (1) Dam breaching is an extremely risky action.
- (2) I oppose EIS Alternative 4, the dam breaching alternative.
- (3) Dam breaching WILL hurt the economy and may NOT help the fish.
- (4) Jobs and our way of life are at stake.

Let's use some common sense rather than taxpayer dollars to make these decisions.

I do support the Corps' John Day draw down study conclusion that no further study is necessary. There are few biological benefits and extremely high economic costs.
