

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT			1. CONTRACT ID CODE	PAGE OF PAGES
			J	1 3
2. AMENDMENT/MODIFICATION NO. 0005	3. EFFECTIVE DATE 23-Jun-2004	4. REQUISITION/PURCHASE REQ. NO. W68SBV-4100-4504		5. PROJECT NO.(If applicable)
6. ISSUED BY WALLA WALLA DISTRICT,COE-G4P CONTRACTING DIVISION 201 N THIRD AVENUE WALLA WALLA WA 99362-1876	CODE W912EF	7. ADMINISTERED BY (If other than item 6) See Item 6		
8. NAME AND ADDRESS OF CONTRACTOR (No., Street, County, State and Zip Code)		X	9A. AMENDMENT OF SOLICITATION NO. W912EF-04-B-0014	
		X	9B. DATED (SEE ITEM 11) 14-May-2004	
			10A. MOD. OF CONTRACT/ORDER NO.	
			10B. DATED (SEE ITEM 13)	
CODE	FACILITY CODE			
11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS				
<input checked="" type="checkbox"/> The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer <input type="checkbox"/> is extended, <input checked="" type="checkbox"/> is not extended. Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.				
12. ACCOUNTING AND APPROPRIATION DATA (If required)				
13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.				
A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.				
B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).				
C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:				
D. OTHER (Specify type of modification and authority)				
E. IMPORTANT: Contractor <input type="checkbox"/> is not, <input type="checkbox"/> is required to sign this document and return _____ copies to the issuing office.				
14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.) It has been determined to modify this solicitation by correcting clerical errors. All other terms and conditions remain unchanged.				
Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.				
15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)

SECTION 01010

SUPPLEMENTARY REQUIREMENTS

PART 1 GENERAL

The work covered by this section of the specifications consists of work common to more than one section of these TECHNICAL SPECIFICATIONS.

1.1 REFERENCES

The publications listed below form a part of this specification to the extent referenced. The publications are referred to in the text by the basic designation only.

CORPS OF ENGINEERS (COE)

COE EM 385-1-1 (2003) Safety and Health Requirements Manual

Website for the safety manual is www.hq.usace.army.mil/soh/em385/385TOC.htm

1.2 SUBMITTALS

Government approval is required for submittals with a "G" designation; submittals not having a "G" designation are for information only. When used, a designation following the "G" designation identifies the office that will review the submittal for the Government. The following shall be submitted in accordance with Section 01330 SUBMITTAL PROCEDURES:

SD-01 Preconstruction Submittals

Accident Prevention Plan; G,CD

Equipment List

Contractor's Schedule

DUST CONTROL

1.3 EQUIPMENT LIST

The Contractor shall furnish a complete list of all equipment to be used on the project, in duplicate, within 15 days after date of receipt of notice to proceed. The Contractor shall submit a revised list in the event of change of equipment. Lists shall include rented equipment as well as lease-purchase or sale-leaseback equipment. The initial list and the revised lists shall indicate dates equipment is assigned to or removed from the project and adequate identification or description of each item of equipment including manufacturer's name (abbreviated), model number, manufacturer's serial number, year of manufacture, and Contractor's assigned serial or record number.

1.4 TESTING OF EQUIPMENT

Before any machinery or mechanized equipment is put to use on the job, it shall be inspected and tested by a qualified person and determined to be in safe operating condition in the presence of the representative of the Contracting Officer. Cranes or derricks shall be tested by the Contractor or a qualified testing agency in accordance with COE EM 385-1-1. Equipment shall be large enough to safely handle proposed picks or tasks without exceeding the crane rating established by these tests.

1.5 SANITATION FACILITIES

The Contractor shall furnish portable sanitation facilities on a trailer or flatbed truck in accordance with COE EM 385-1-1. Sanitation facilities shall be moved on the site at the beginning of each work day, and moved off the site at the end of each work day. Sanitation facilities shall be considered incidental to the performance of the work in this contract, and no separate payment will be made.

1.6 SAFETY

1.6.1 Accident Prevention

In accordance with Contract Clause ACCIDENT PREVENTION the Contractor shall provide and maintain work environments and procedures which will safeguard the public, Government personnel, Contractor personnel, property, materials, supplies, and equipment exposed to Contractor operations and activities.

1.6.1.1 Safety Requirements

The Contractor shall comply with the requirements of COE EM 385-1-1.

1.6.1.2 Corrective Action by the Contractor

Whenever the Contracting Officer detects any noncompliance with these requirements or any condition that poses a serious or imminent danger to the health or safety of any personnel, the Contracting Officer will notify the Contractor and request immediate initiation of corrective action. Lack of notice from the Contracting Officer does not relieve the Contractor from compliance requirements and responsibility. After receipt of notice from the Contracting Officer, the Contractor shall immediately take corrective action. Such notice, when delivered to the Contractor at the site of the work, shall be deemed sufficient for the purpose of notification. If the Contractor fails or refuses to comply promptly, the Contracting Officer may issue an order stopping all or part of the work until satisfactory corrective action has been taken. No part of the time lost due to such stop orders shall be made the subject of claim for extension of time or for additional costs or damages by the Contractor.

1.6.2 Accident Prevention Plan

Before commencing any work on site, the Contractor shall submit an Accident Prevention Plan for the Contracting Officer's review and acceptance. Paragraph 01.A.07 and Appendix A of COE EM 385-1-1 reflect requirements and guidelines for preparing accident prevention plans.

1.6.3 Hazard Analysis

Prior to beginning each major phase of work, an activity Hazard Analysis shall be prepared by the Contractor in accordance with paragraph 01.A.09 and Figure 1-1 of COE EM 385-1-1 and provided to the Government Inspector.

1.6.4 Subcontractors

Compliance with the accident prevention and safety requirements by subcontractors will be the responsibility of the Contractor.

1.7 FIRE CONTROL

Each piece of internal combustion engine driven equipment used at the work site shall be equipped with a fire extinguisher in accordance with recommendation NFPA as appropriate. The minimum approved rating of extinguishers shall not be less than 5-B:C.

1.8 WORK SCHEDULES

1.8.1 Contractor's Schedule

At the prework meeting, the Contractor shall furnish a schedule of working hours and days of the week for contract work. The Contractor shall furnish notification of any change of schedule of regular work hours, overtime work hours, and shifts of work crews and personnel at the site. This notification shall be provided a minimum of 48 hours prior to any schedule change to allow suitable scheduling of Government personnel and inspection.

Exception to this requirement may be allowed in case of schedule change due to emergency conditions.

1.9 CONTRACTOR WORK AREA

Work and storage areas will be available for the Contractor as directed by the COR. The Government will not be responsible for providing security for stored equipment, supplies, and materials. The Contractor shall provide all necessary security. Staging areas will be located outside the leveed section, and fuel and lubricant storage and dispensing activities shall be restricted to the staging areas.

1.10 REGULAR CLEANUP AND DEBRIS DISPOSAL

Debris resulting from the work, such as packing cases, scrap lumber, and other debris shall be collected and removed from the project site daily and disposed of in a legal manner. All costs for removing debris shall be incidental to the work, and no separate payment will be made therefore.

1.11 PROTECTION AND RESTORATION OF EXISTING FACILITIES.

The Contractor shall take precautions to prevent damage to existing facilities while performing work under this contract. Upon completion of the work, all the existing facilities not included as a portion of the work shall be left in a condition better than or equal to the condition existing at time of contract award. Costs for maintenance, repair and restoration of any facilities shall be considered as incidental to and included in the bidding schedule prices.

1.12 ROCK STOCKPILE

Contractor shall stockpile the quarried rock at the quarry site, rock may be stockpiled on the jobsite after 7 September, 2004.

1.13 ACCESS JOBSITE

The access road is open to the public for non-vehicle access. Vehicle access is controlled by a locked gate. The contractor is responsible for all access control during working hours, as well as public safety. Contractor and equipment access to the work site is available through the right-of-way provided by the Sponsor, Teton County, and is subject to the conditions of that right of way. The Contractor shall use the access route that will result in the least impact to vegetation, waters, and wetlands. Contact Don Barney, Road and Levee Superintendent, at (307) 733-7190, for instructions and keys.

1.14 REPAIR OF ACCESS ROAD

The Contractor shall return the access road to pre-work conditions when the job is completed, by regrading, and then resealing the access road with Magnesium Chloride. Pre-work conditions shall to be detailed by on site inspection during the pre-work conference. Prework and postwork inspections will be conducted with the Teton County Road and Levee Department. All repairs shall be completed before final payment. This shall be considered incidental to the job and no additional pay will be made for this work.

1.14.1 Dust Inhibitor Application to Access and Levee Roads

Magnesium chloride (MgCl) shall be applied on 6 inches of uncompacted gravel at a rate of 33 tons of MgCl per mile of 12 foot wide road. The MgCl shall be mixed with water as recommended by the manufacturer. Surface preparation and protection shall be as recommended by the manufacturer. The ground shall not be compacted prior to application. Magnesium chloride shall not be applied if rain is forecast or appears likely.

1.15 DAILY CLEANUP OF SITE ENTRANCE

Entrance off State Route 22 and the access road to the job site shall be kept free of all materials dropped from Contractor vehicles. Contractor shall broom sweep the asphalt entrance of all debris generated at the end of each shift. All debris shall be disposed of in a legal manner. Contractor shall also wash off all dirt and mud that cannot be broom swept from the asphalt on State Route 22 when the job is completed.

1.16 CONTRACTOR'S CRANES

Contractor's cranes and equipment furnished for this work shall conform to all applicable OSHA Requirements and COE EM 385-1-1.

1.17 TRAFFIC CONTROL AND PUBLIC ACCESS

Existing public roads and access roads shall be kept open to vehicle traffic at all times. The Contractor shall conduct his work in such a manner as will obstruct and inconvenience traffic as little as possible. When necessary for the Contractor to operate on or cross existing highways or roads, the Contractor shall furnish signs lights, and /or other necessary safe gaurds to safely control and direct the flow of traffic.

The Contractor shall obtain any and all required permits for such operations from the appropriate private or public authority at no additional cost to the Government.

1.18 DUST CONTROL

The Contractor shall be responsible during dust generating activities to prevent dust from spreading. The Contractor shall submit a written dust control plan for approval at the prework meeting

1.19 Cultural Resources

If cultural materials are encountered during excavations, an assessment of the find and a determination may be made to move or abandon the work in the immediate area. If human remains are discovered, they shall not be disturbed, but protected in place. All work shall stop in the area of the discovery and the Contractor shall immediately notify the Corps of Engineers COR.

SECTION 01270

MEASUREMENT AND PAYMENT

PART 1 GENERAL

1.1 General

In each instance, the contract price for an item shall constitute full compensation for furnishing all plant, labor, equipment, and materials, and for performing all operations required to complete the work included in the item as herein specified, or as otherwise approved.

1.2 SUBMITTALS

Government approval is required for submittals with a "G" designation; submittals not having a "G" designation are for information only. When used, a designation following the "G" designation identifies the office that will review the submittal for the Government. The following shall be submitted in accordance with Section 01330 SUBMITTAL PROCEDURES:

SD-03 Product Data

certified weight certificates; G,CD

1.3 MOBILIZATION AND DEMOBILIZATION

Measurement and payment for mobilization and demobilization will be in accordance with CLAUSE: PAYMENT FOR MOBILIZATION AND DEMOBILIZATION OF Section 00800. This item will be measured for payment as a complete pay item (LS) under Bid Item No. 0001, "Mobilization and demobilization," which price and payment will be full compensation for mobilizing and demobilizing all plant and equipment required for performance of the work, as specified and approved.

1.4 ROCK QUARRIED AND STOCKPILED

Rock quarried and stockpiled will be measured for payment as the number of tons (TN) stockpiled. Payment will be made at the unit price for Item No. 0002 "Rock Quarried and Stockpiled," which price and payment shall be full compensation for all work required for quarrying, grading and stockpiling, complete, as specified and approved. Preliminary quantities for payment purposes will be made based on a conversion of the number of cubic yards contained in the stockpile to tons (TN) using a conversion factor of 0.91 CY per TN. Preliminary payments shall not exceed 80% of the estimated quantity of 4,000 tons. A final payment adjustment will be made based on the weighed quantity of specified and approved rock delivered. If the stockpiled volume generates more than 4,000 TN of specified rock, the contractor will receive payment for the excess amount under Item No. 0003B if the excess rock is necessary to construct the rock grade control. If the excess rock is not needed to construct the rock grade control, no further payment will be made.

1.5 ROCK GRADE CONTROL ROCK PLACEMENT

1.5.1 First 4000 Tons

First 4000 tons of rock placed will be measured for payment as the number of tons (TN) placed up to 4000 tons. Payment will be made at the unit price for Item No. 0003 A, "First 4000 Tons," which price and payment shall be full compensation for all work required to place and transport up to 4000 tons of rock from the stockpile, complete, as specified and approved.

1.5.2 Over 4000 Tons

Over 4000 tons of rock placed will be measured for payment as the number of tons (TN) placed over "First 4000 Tons" Item No. 0003 A. Payment will be made at the unit price for Item No. 0003 B, "Over 4000 Tons," which price and payment shall be full compensation for all work required for quarrying, grading, transporting and placing the rock over the first 4000 tons, complete, as specified and approved.

1.5.2.1 Measurement

Rock will be measured for payment by the ton (2,000 pounds) by weighing each truckload to the nearest 0.1 ton, and the final quantity of the whole sum will be rounded to the nearest whole ton. The rock will be measured for payment by being weighed on approved scales before being placed in the work. Quarry weights will not be accepted. Scales shall be of sufficient length to permit simultaneous weighing all axle loads and shall be inspected, tested and sealed as directed to assure accuracy with 0.5 percent throughout the range of the scales. The scales, located at the site of the work, shall be certified as to accuracy by an acceptable scales company representative prior to weighing any riprap. Scales will be checked and certified before rock hauling and rechecked and recertified whenever a variance is suspected. The Contractor shall furnish the scales.

If commercial scales are readily available in close proximity 10 miles of site of work, the Contracting Officer may approve the use of the scales. The rock shall be weighed in the presence of the Government representative. The Contracting Officer may elect to accept certified weight certificates furnished by a public weighmaster in lieu of scale weights at the jobsite.

1.6 ROCK GRADE CONTROL EXCAVATION

Rock Grade Control Excavation will be measured for payment as the number of Hours (HR) performed to excavate the rock grade control. Payment will be made at the unit price for Item No. 0004, "ROCK GRADE CONTROL EXCAVATION," which price and payment shall be full compensation for furnishing and operating the backhoe, including operator, fuel, lubricants and all appurtenant items, and all work required for excavation of the rock grade control, complete, as specified and approved.

1.6.1 Measurement

Rock grade control excavation will be measured for payment as the actual number of hours and fractions thereof which the specified backhoe and operator is satisfactory operated, as directed by the Contracting Officer. Time required for purposes other than actual excavating such as mobilizing, refueling, lubricating, maintenance, and idle time will not be included in the measurement. Fractions of an hour will be measured to the nearest quarter hour. Measurement of work time shall begin when the backhoe and

operator begins excavation of the rock grade control and end when backhoe is not excavating.

1.7 ROCK GRADE CONTROL SURVEY

Survey of the Rock Grade Control will be measured for payment as a complete pay item (LS). Payment will be made at the lump sum price for Item No. 0005, "ROCK GRADE CONTROL SURVEY," which price and payment shall be full compensation for all work required for surveying the site after construction is completed, or when directed in writing by the Contracting Officer. This work at a minimum shall cover the following: all documentations of survey, drawings of topo in approved electronic format see section 01330 and section 02300 for details, complete, as specified and approved.

1.8 MOBILIZATION AND DEMOBILIZATION (OPTIONAL)

Measurement and payment for mobilization and demobilization will be in accordance with CLAUSE: PAYMENT FOR MOBILIZATION AND DEMOBILIZATION of Section 00800. This item will be measured for payment as a complete pay item (LS) under Bid Item No. 0006, "Mobilization and demobilization (optional)," which price and payment will be full compensation for mobilizing and demobilizing all plant and equipment required for performance of the authorized optional work. This bid item will be paid only if one or more of the optional items are exercised in the second year of the contract, as specified and approved.

1.9 MODIFICATION OF EXISTING ECO-FENCES (OPTIONAL)

Repair of existing eco fences bid items 0007 thry 0011. Only the eco fences directed in writing by the Contracting Officer shall be repaired. Payment will be made at the lump sum price for each item "MODIFICATION OF EXISTING ECO-FENCES (OPTIONAL)," which price and payment shall be full compensation for all work required for repairing each existing eco fences at the site, complete, as specified and approved.

1.9.1 Eco Fence A (Optional)

Eco Fence A (Optional) Item No. 0007 will be measured for payment as a complete pay item (LS).

1.9.2 Eco Fence B (Optional)

Eco Fence B (Optional) Item No. 0008 will be measured for payment as a complete pay item (LS).

1.9.3 Eco Fence C (Optional)

Eco Fence C (Optional) Item No. 0009 will be measured for payment as a complete pay item (LS).

1.9.4 Eco Fence D (Optional)

Eco Fence D (Optional) Item No. 0010 will be measured for payment as a complete pay item (LS).

1.9.5 Eco Fence E (Optional)

Eco Fence E (Optional) Item No. 00011 will be measured for payment as a

complete pay item (LS).

1.10 ECO FENCE F (OPTIONAL)

Eco Fence F will be measured for payment as a complete pay item (LS). Payment will be made at the lump sum price for Item No. 0012, "ECO FENCE F (OPTIONAL)," which price and payment shall be full compensation for all work, equipment, and materials required for building the fence, complete, as specified and approved.

1.11 ECO FENCE G (OPTIONAL)

Eco Fence G will be measured for payment as a complete pay item (LS). Payment will be made at the lump sum price for Item No. 0013, "ECO FENCE G (OPTIONAL)," which price and payment shall be full compensation for all work, equipment, and materials required for building the fence, complete, as specified and approved.

1.12 FISH BARB TYPE A (OPTIONAL)

Fish barb type A will be measured for payment as a complete pay item (LS). Payment will be made at the lump sum price for Item No. 0014, "FISH BARB TYPE A (OPTIONAL)," which price and payment shall be full compensation for all work, equipment, and materials required for building the fish barb, complete, as specified and approved.

1.13 FISH BARBS TYPE B (OPTIONAL)

Fish barbs type B will be measured for payment as the number (EA) of type B fish barbs constructed. Payment will be made at the unit price for Item No. 0015, "FISH BARBS TYPE B (OPTIONAL)," which price and payment shall be full compensation for all work, equipment, and materials required for building each type B fish barb, complete, as specified and approved.

1.14 FISH BARBS TYPE C (OPTIONAL)

Fish barbs type C will be measured for payment as the number (EA) of type C fish barbs constructed. Payment will be made at the unit price for Item No. 0016, "FISH BARBS TYPE C (OPTIONAL)," which price and payment shall be full compensation for all work, equipment, and materials required for building each type C fish barb, complete, as specified and approved.

1.15 EXCAVATED MATERIAL HAULED OFFSITE (Optional)

1.15.1 First 4,500 Cubic Yards (Optional)

First 4,500 cubic yards of excavated material hauled offsite will be measured for payment as the number of cubic yards (CY) hauled up to 4,500 cubic yards. Each truck load shall be measured for the total cubic yards of excavated material in the truck. Each load shall be recorded by the Contractor and initialed by the Contracting Officer or Representative. Payment will be made at the unit price for Item No. 0017 A, "First 4,500 Cubic Yards," which price and payment shall be full compensation for all work required to haul and dump offsite up to 4,500 cubic yards of material excavated from the site, complete, as specified and approved.

1.15.2 Over 4,500 Cubic Yards (Optional)

Over 4,500 cubic yards (CY) of material hauled offsite will be measured for

payment as the number of cubic yards (CY) hauled over "First 4,500 cubic yards" Item No. 0017 A. Each truck load shall be measured for the total cubic yards of excavated material in the truck. Each load shall be recorded by the Contractor and initialed by the Contracting Officer or Representative. Payment will be made at the unit price for Item No. 0017 B, "Over 4,500 Cubic Yards," which price and payment shall be full compensation for all work required to haul and dump offsite the material excavated from the site over the first 4,500 cubic yards, complete, as specified and approved.

1.16 ADD HEIGHT TO ROCK GRADE CONTROL STRUCTURE (Optional)

1.16.1 First 500 Tons

First 500 tons of rock placed will be measured for payment as the number of tons (TN) placed up to 500 tons. Payment will be made at the unit price for Item No. 0018 A, "First 500 Tons," which price and payment shall be full compensation for all work required for quarrying, grading, transporting and placing the rock up to the first 500 tons, complete, as specified and approved.

1.16.2 Over 500 Tons

Over 500 tons of rock placed will be measured for payment as the number of tons (TN) placed over "First 500 Tons" Item No. 0018 A. Payment will be made at the unit price for Item No. 0018 B, "Over 500 Tons," which price and payment shall be full compensation for all work required for quarrying, grading, transporting and placing the rock over the first 500 tons, complete, as specified and approved.

1.16.3 Measurement

Rock will be measured the same way as specified in Rock Grade Control Rock Placement Bid Item 0003 above.
