## Section C - Descriptions and Specifications

**STATEMENT OF WORK****Final Report  
For Dworshak Reservoir Surveys  
Conducted Under The Former Intertie Project****I. Project Background and Purpose**

The U. S. Army Corps of Engineers (Corps) constructed the Dworshak Dam from 1963 to 1972 for flood control and hydroelectric power production. The dam inundated approximately 54 miles of the North Fork of the Clearwater River (Mattson et al. 1983). Roughly 632 feet above the riverbed at the dam, the long, narrow reservoir reaches 1,600 feet above sea level (asl) at its maximum pool elevation. Pondage operations resulting from Bonneville Power Administration's (BPA) power marketing activities produce an annual drawdown exposing nearly 185 linear miles of shoreline with the water level fluctuating over a range of 150 vertical feet.

In 1991, several agencies including the Corps entered into a Programmatic Agreement (PA) specifying cultural resources responsibilities under the NHPA, Section 106, as amended. The PA called for an intensive survey, evaluation, and determination of National Register eligibility of the historic properties located on lands affected by pondage operations. The report of findings was to result in the identification of methods to mitigate and monitor the National Register eligible sites and provide for adequate curation of recovered archaeological collections.

The Nez Perce Tribe was asked to conduct a cultural resource survey of 24 miles of shoreline in the Dworshak Reservoir project lands that had not been previously surveyed. The entire length of the Little North Fork River was also surveyed. Nez Perce personnel conducted these field investigations in the late 1990s. A draft survey report was developed upon completion of field work, however, a final comprehensive survey report was never finished.

The Federal Columbia River Power System (FCRPS) cultural resource program at the Walla Walla District Corps is implementing completion of the final comprehensive survey report to insure that the cultural resource surveys conducted by the Nez Perce Tribe at the Dworshak Reservoir (Nez Perce surveys) are appropriately documented and filed with the Idaho State Historic Preservation Office. For the purposes of this contract, the report shall contain all information gathered during Nez Perce surveys in the Dworshak Reservoir.

**II. Study Area**

The study area includes the federal land managed by the Corps in the Dworshak Dam and Reservoir Project.

### III. Statement of Contractor Services

The Contractor shall furnish all services, labor, materials and equipment needed for development and completion of a final comprehensive Nez Perce survey report.

### IV. Tasks

The Contractor shall:

1. Review all existing site records, reports, other sources of information regarding the Nez Perce survey efforts, and the number and type of cultural resources sites recorded in the upper stretches of the Dworshak reservoir. Include a list of all records, reports, and other sources of information reviewed for the final report.
2. Incorporate all information gathered and generated during the Nez Perce survey into the comprehensive report and appendices. This information shall include but not be limited to:
  - Dates that surveys were conducted, and
  - Names of crew members conducting surveys, and
  - Names of field recorders, photographers and map makers, and
  - Transect intervals, percentage of subsurface and surfaces visible during survey, and
  - Any cultural resources that were noted but not formally recorded on a site form
  - Photograph Logs/Indexes, and
  - Methods, techniques and information used to determine survey locations (i.e., elevation, landform, aspect, slope, presence and/or absence of dense vegetation, steep topography), and
  - Maps of the entire project/study area showing survey areas, and areas not surveyed as well as text describing the rationale for the no-survey status, and
  - Maps of the entire project/study area showing where recorded sites are located, and
  - Text and spreadsheet/list/table describing the number of acres surveyed, and number of acres not surveyed and reason/rationale for any areas falling within the no-survey status, and
  - Appendices containing copies of all original field notes, field maps, site forms, artifact sketches and drawings, and photographs.

Prepare a report that is comprehensive in scope and summarizes the survey methodology, the results of survey efforts and recorded sites within the Dworshak Reservoir. The report format shall reflect contemporary organizational and illustrative standards of current professional archaeological, anthropological, and historical journals (e.g. American Antiquity). The report shall include but is not be limited to:

- title page,
- executive summary,
- introduction,
- table of contents,
- survey design,
- text,
- maps showing areas surveyed,
- photograph index, and
- bibliography.

The summary shall include results, major findings, and management recommendations. The title page shall note that the report was done in partial fulfillment of the Corps' contract (include the contract number).

**NOTE:** The Contractor shall prepare a final comprehensive report that contains all the information gathered/generated during former Intertie Project (i.e., Nez Perce tribal surveys) to insure that this information is preserved, is presented in a professional format and is made available for critical cultural resource management decisions.

3. Insure that all report pages, photographs, tables, maps, etc. are consecutively numbered throughout the report and where applicable, shall have titles and appropriate explanatory notes.

4. Complete site forms for all cultural resources identified during the survey efforts. The site forms will conform to standards established by the Idaho State Historic Preservation Office. Site locations shall be displayed on U.S.G.S. maps and included in individual site forms and shall be attached to but not incorporated in the final report.

5. Prepare text materials typed on good quality bond paper, 8.5 inches by 11 inches with a 1.25-inch binding margin on the left side, .75 inch on the right side, 1 inch at the top, and 1 inch at the bottom. All pages, figures, and tables shall be consecutively numbered throughout the document and where applicable, shall have titles and appropriate explanatory notes.

6. Submit a draft comprehensive survey report and separate copies of all draft site records by 31 March 2005. The Government shall review the document and site records and provide comments. The Contracting Officer (CO) or her representative(s) shall submit the Government's comments to the Contractor by 27 May 2005. The Government reserves the right to have the report reviewed by other qualified individuals and to include their comments as part of the Government's.

A camera-ready copy of the final site records shall also be submitted. The final site forms shall be accepted in writing by the CO.

10. All generated project materials (e.g. notes, maps, photographs, slides, etc.) shall be the property of the United States. The Contractor shall properly label (i.e. identify) and box all such materials prior to their return to the Government. The Contractor shall insure the labeled materials meet the standards outlined in 36 CFR Part 79 (specifically, Sections 79.4 and 79.5) and Washington State Museum standards. The Contractor shall submit the labeled materials by 29 July 2005. The CO will submit written acceptance to the Contractor by 22 August 2005 that the labeled materials were received. (End of clause)

252.204-7004 REQUIRED CENTRAL CONTRACTOR REGISTRATION ALTERNATE A (NOV 2003)

(a) Definitions. As used in this clause--

“Central Contractor Registration (CCR) database” means the primary Government repository for contractor information required for the conduct of business with the Government.

“Commercial and Government Entity (CAGE) code” means--

(1) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

(2) A code assigned by a member of the North Atlantic Treaty Organization that DLIS records and maintains in the CAGE master file. This type of code is known as an “NCAGE code.”

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see Subpart 32.11 of the Federal Acquisition Regulation) for the same parent concern.

“Registered in the CCR database” means that--

(1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database;

(2) The Contractor's CAGE code is in the CCR database; and

(3) The Government has validated all mandatory data fields and has marked the records “Active.”

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “DUNS” or “DUNS +4” followed by the DUNS or DUNS +4 number that identifies the offeror's name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number--

(i) If located within the United States, by calling Dun and Bradstreet at 1-866-705-5711 or via the Internet at <http://www.dnb.com>; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company Physical Street Address, City, State, and Zip Code.

(iv) Company Mailing Address, City, State and Zip Code (if separate from physical).

(v) Company Telephone Number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g)(1)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12 of the FAR; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (g)(1)(i) of this clause, or fails to perform the agreement at paragraph (g)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov> or by calling 1-888-227-2423, or 269-961-5757.

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**\*\* UNIFORM ALLOWANCE \*\***

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in

those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination.

Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
