ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite):

Wetland Site #2 is a small depression area that is the result of overflow water from a retail shopping center retention ponds. It is isolated with no apparent surface connection or hydraulic connection with any other water of the US. In addition, the site is not boatable. Based on Solid Waste Agency of Northern Cook County v. U.S. Army Corps of Engineers, 531 U.S. 159 (2001), where the United States Supreme Court held that isolated, non-navigable, intrastate waters are not jurisdictional under the Clean Water Act if the sole interstate commerce nexus is the use of such waters by migratory birds. Wetland Site #2 is not subject to Clean Water Act jurisdiction
