Ice Harbor Navigation Lock Information

Ice Harbor Navigation Lock, located at Snake River Mile 9.7, is continuing to operate with only one drain valve. Because of this, lockages may be slower than normal.

Repair of the broken drain valve is planned during the lock maintenance outage beginning 6 March 2004 at 6:00 a.m.

We appreciate your understanding and cooperation with this matter.

Public Notices and other Walla Walla District navigation lock information are available on the Internet at:
