The eagles have landed at Dworshak Dam and Reservoir, Cold Springs Group Camp temporarily closed

Orofino, Idaho – U.S. Army Corps of Engineers Natural Resource Managers say the eagles have landed at Dworshak Dam and Reservoir and they are under the influence of spring. A pair of nesting bald eagles has been observed near the Cold Springs Group Camp.

To help the nesting eagles, Cold Springs Group Camp is temporarily closed, along with approximately 1/2 mile of the trail to the camp.

Areas posted include the trailhead at Dent Bridge; the trail just west of minicamp 14.1; on the trail approximately 1/4 mile east of the Cold Springs Campground; on the trail east of minicamp 12.4; and on the shoreline surrounding these areas. The area is also closed to boat traffic. Maps of these closures are posted at all boat ramps at Dworshak Reservoir.

The area is now posted as closed.

“We request the public’s help for the ‘prospective’ parents by respecting the temporary closures and reporting any violations to the Corps,” said Russ Davis, Wildlife Biologist.

For more information, call (208) 476-1203.
