## **Corps to install ADA-accessible boat dock at Lucky Peak Dam and Lake; Ramp at Barclay Bay to partially close May 30-31 to accommodate work**

**BOISE, Idaho** – A new boat dock will be installed at Barclay Bay on the Boise River to make access easier for people with physical disabilities, U.S. Army Corps of Engineers officials at Luck Peak Dam and Lake announced today.

Wednesday and Thursday, May 30 and 31, a portion of the Barclay Bay boat ramp will be closed to facilitate that work. A contractor will be on site assembling and securing an Americans with Disabilities Act-compliant dock at Barclay Bay beach.

The dock and other improvements at the site – beach sand, buoyed swim area, wind sailors/kites launching area, newly painted and roofed sun shelters, ADA vault toilet, and future ADA path improvements – are the result of a collaborative effort between the Corps of Engineers, a focus group of people with disabilities, Idaho Waterways Improvement Funds administered by Idaho Park and Recreation, Boise Parks and Recreation AdVenture program, and the Boise Sailors Association. Serpentina, a purple childrens' climbing toy, will be relocated to the other side of the beach once improvements are completed.

The work has been scheduled for mid-week to minimize congestion at the popular Barclay Bay ramp. The ramp will still be accessible, but two of the four lanes will be closed. All other boat ramps at Lucky Peak will be fully accessible.

For more information about recreation opportunities at Lucky Peak Dam and Lake, check out the Walla Walla District's Web site at [www.nww.usace.army.mil/corpsoutdoors/](http://www.nww.usace.army.mil/corpsoutdoors/).
