Dworshak offers educational program about local plantlife

AHSAHKA, Idaho – The Dworshak Natural Resources Management staff invites visitors to learn more about vegetation growing around Dworshak Dam and Reservoir during a campground interpretive program at the Dent Acres sun shelter at 7 p.m. on Saturday, Aug. 11.

Mike and Joan Mount, owners of Green Things Nursery in Orofino will be presenting “Native vs. Naturalizers,” an educational presentation about plants that are not necessarily native to the area, but have adapted so well they “naturalize” and become native.

All interested individuals are welcome to this free program, third in a series of programs offered at Dent Acres Campground.

If you have any questions about this program or programs to be offered in the future, please call U.S. Army Corps of Engineers Park Ranger Donna Bryant at (208) 476-1274.
