Corps reviews permit application; *permit requested to do work in Canyon County, Idaho*

WALLA WALLA, Wash. – The U.S. Army Corps of Engineers is reviewing an application requesting a Department of the Army permit for certain work in waters of the United States. The public notice regarding the permit application listed here was issued May 14, 2008.

Public Notice NWW-2007-396-B03, requested by Riverbend Estates, LC, proposes to discharge approximately 5,000 cubic yards of native soil and rock fill material into 1.08 acres of waters of the United States to construct roads and lots for a subdivision. The applicant also proposes to discharge approximately 10 cubic yards of sandbags to construct a temporary cofferdam and discharge approximately 1,000 cubic yards of rock riprap for bank stabilization along 810 feet of the Boise River as mitigation. The project is located in the Mill Slough, South Slough, North Slough, an unnamed drain and adjacent wetlands and the Boise River, in Canyon County, Idaho. Comments must be received by June 3, 2008. A copy of the public notice may be found at www.nww.usace.army.mil/html/offices/op/rf/pn/2007-396.pdf.

The Corps of Engineers is soliciting comments from the public, federal, state and local agencies, Native American tribes and other interested parties on these permit requests.

The Corps issues or denies permits for the discharge of dredged or fill material into waters of the United States under authority of Section 404 of the Clean Water Act and for work in or affecting navigable waters of the U.S. under Section 10 of the Rivers and Harbors Act of 1899.

For more information on any public notice under consideration by the U.S. Army Corps of Engineers, please visit the Current Public Notices section on the Walla Walla District's website at www.nww.usace.army.mil/html/offices/op/rf/rfhome.htm.
