Department of The Army
Walla Walla District, Corps of Engineers
Attn: Chris Hyland
Planning Division
201 North Third Avenue
Walla Walla, WA 99362-1876

Dear Chris:

Thank you for the opportunity to review the potential projects identified in the Walla Walla Watershed Reconnaissance Study, on January 19, 1997.

It would appear that all of the major projects within the watershed have been identified. The upper and lower Walla Walla basin as well as the discussion of the City of Milton-Freewater non-point flood/sediment from the agricultural hills is of direct importance to our City.

At this time, we will not ask for a feasibility study as a sponsor.

Please keep us posted on the progress of the study, and we may ask you to present the program to our City Council in the future.

If you have any questions, please call me at 541-938-5531, Ext. 141.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Howard Moss".
