---

<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

The bore pits will be within the roadway prism. The boring pits will be about 10 feet wide by 20 to 30 feet long by 10 to 15 feet deep. The bore pits will be about 25 feet away from the centerline of the lateral (outside the lateral's easement). Google Earth Pro Aerial Photography clearly documents that the bore pits are in areas of dryland.
