

# Play It Safe!

**U.S. ARMY CORPS OF ENGINEERS**

**BUILDING STRONG.**

Visitor safety on Corps lands is a high priority.

## Play it safe!

**Do your part** – We thank those who park safely, don't take glass on the beach, consume alcohol responsibly, remove trash, clean up after others, and respect other visitors.

We're monitoring visitor actions, which help determine future use of Corps property. We're watching for unsafe, unacceptable, prohibited or illegal behavior. We issue citations if necessary, but our first choice is that you use common sense and be safe.

## What you can and can't do on Corps property

- Park appropriately and legally. Don't block other vehicles or access.
- Remember, Illia Dunes is not a designated "recreation area." Instead, it's a "wildlife habitat management unit." Respect wildlife and their habitat. You wouldn't want visitors to your home to leave a mess behind, right?
- No glass is allowed on the beach. Please don't throw that empty bottle in the ditch.
- Consume alcohol responsibly, and only if of legal drinking age. Don't drive or boat under the influence. Have a designated driver. While alcohol is currently allowed at Illia Dunes and Granite Point, the District Commander can ban alcohol. It's been banned at other areas within the District.
- Drug use is prohibited on federal lands even if state law allows it elsewhere.
- Use provided restroom facilities.
- Possession of fireworks is not allowed on Corps land at any time of year. Help prevent fires.
- Don't litter. Help remove trash: "Pack it in, Pack it out" or place trash in Corps-provided bags and containers, not on the beach. Help protect our environment.
- Cliff jumping is not allowed at any time at Granite Point or other Corps properties. You can get injured or killed.
- Special events require an advance permit. Contact our Lower Granite Natural Resources Management Office at 509-751-0240 at least 30 days in advance.

**Take care of yourself** as you have a good time. Wear sunscreen, drink water frequently, and put on a life jacket if you're on the water. If you can help a friend, please do so.

**Enforcement** is jointly conducted by Corps rangers, Garfield County Sheriff, Whitman County Sheriff, Washington Dept. of Fish and Wildlife, and Washington State Patrol. Violators may be cited by Corps rangers or law enforcement.

**Your actions help determine future use of Illia Dunes, Granite Point and other Corps lands. Play it safe, and enjoy your visit.**
